

Hanging Sign Labor Rules & Regulations

Commodity Classic 2023

Orange County Convention Center

Orlando, FL

March 9-11, 2023

EXHIBIT RIGGING AND HANGING SIGNS INFORMATION

Rigging points at the Orange County Convention Center vary considerably. Rigging of exhibit components, trusses and hanging signs are allowed above 6+ booth spaces only. No hanging or rigging components can exceed the outer boundaries of the exhibit booth's perimeter or the safe loading of the facility ceiling. The maximum height of an island booth at Commodity Classic in the Orange County Convention Center is twenty-two feet, when ceiling height and rigging permit (22' from the floor to the top of any booth components and signs). Suspended truss or rigging hardware used to support signs or lighting is not considered part of the booth and is not factored into the maximum booth height. Signs and/or lighting should not be more than 50% of your booth space in size. Consult Paramount Convention Services for exact maximum dimensions.

All rigging and hanging at the show is performed by the Orange County Convention Center Rigging Services, to maintain show installation/removal schedules. Rigging must be pre-approved by Paramount Convention Services (PCS). Booth rigging designs must be submitted to Orange County Convention Center and Paramount Convention Services (PCS) by February 4th for review and certification. Information concerning rigging and loading can be obtained by contacting Paramount Convention Services at avictor@paramountcs.com.

Please include the following information with your inquiry

- Booth#
- Approved Booth Design
- Weight and Overall Design of Structure
- Rigging Plan

OCC important rules to note

OCCC TERMS & CONDITIONS

- The OCCC requires a 25% deposit on all rigging equipment orders to secure equipment in our inventory.
- OCCC Rigging is responsible for assembling and installing all truss and motors.
- Signs and/or truss exceeding 100 lbs. will require a chain hoist.
- Only rated rigging hardware is permitted. Rigging hardware is available through the OCCC at an additional charge (aircraft cable, ropes, etc.).
- Modifications or additions to incentive rate orders received after the incentive deadline are subject to base or onsite rates.
- Rates are based on when payment is received by OCCC. Orders without payment will NOT be processed and service will be withheld.
- Orders received on site are subject to a 50% price increase over base rates.
- All prices are subject to change without notice.

Hanging Sign Labor Rules & Regulations

Commodity Classic 2023

Orange County Convention Center

Orlando, FL

March 9-11, 2023

The aisles, passageways and overhead spaces remain strictly under control of Commodity Classic. No signs, decorations, banners, advertising matter or special exhibits will be permitted in these areas except by purchase of aisle space and special permission of Commodity Classic. No overhead signage / materials may be hung from the ceiling by exhibitors, except islands of 6 or greater booths may hang professionally-produced signage and/or lighting over their ground- supported booth. Lighting must be indirect and completely shielded to eliminate glare and interference with other exhibitors and guests. The use of flashing or rotating lights will not be allowed. Products on display which have such lighting must be pre-approved by Show Management. The top of the booth's sign must not extend more than 22' from the exhibit hall floor without prior approval. Signage, draping and lighting MAY NOT block any Commodity Classic signage or other booths. Hanging signs and/or lighting must be hung directly over the booth and not the aisles. All signs, regardless of size, should be constructed of lightweight metals and plastics to allow greater flexibility and ease of installation. Signs and/or lighting should not be more than 50% of your booth space in size. All rigging must be requested first through the appointed decorator who will coordinate approval with show management and services as needed with the convention center if they require providing rigging services. All hanging signage and/or lighting must adhere to the policies of the show facility. Commodity Classic reserves the right to refuse the use of such hanging signage and/or lighting that in its opinion is not in keeping with the character or purpose of the Commodity Classic, or causes injury or interferes with the display of other exhibitors. Obstruction of the aisles is strictly prohibited. Should you need to request authorization for rigging to support a booth structure that comes from the floor up, please submit to the Commodity Classic decorator. Approval for the use of hanging signs, draping and graphics, at any height, must be received by the Commodity Classic decorator by February 4th to meet Convention Center requirements. Variances may be issued at the exhibit management's discretion. Drawings should be available for inspection.

The OCCC is the exclusive aerial rigging service provider for exhibitors. In order for the OCCC to provide the best possible service to our clients, the following aerial rigging guidelines are applicable to all exhibitors and/or exhibitor appointed contractors (EACs). The OCCC's Rigging department can be reached by phone (407) 685-5555 to assist with any questions in regards to aerial rigging.

1. The OCCC is the exclusive provider of aerial rigging services.
2. All rigging must conform to Show Management rules, regulations, and facility limitations.
3. The use of any type of tape/adhesive for attaching signs, banners, or decorations to the building, walls, or decorative surfaces is not permitted.
4. All equipment, signs, products, etc. must be designed to suspend safely and in an appropriate condition to be suspended. A structural engineer's certification or seal of approval may be required under certain conditions.
5. All hardware is required to have a working load limit (WLL). Use only rated rigging hardware when constructing your sign. All hardware and equipment must be approved by the manufacturer for overhead suspension.
6. Rigging plots, drawings, blueprints or engineers certification (when requested) must be submitted to the OCCC Rigging department a MINIMUM of THREE WEEKS in advance of the first move-in day for your show and must include the location, the dimensions, the height above the floor to the top, and the weight of the suspended item. They must also show booth outline with aisles marked for reference.
7. All points where nylon slings are used will require a steel safety cable.
8. All assembly of equipment, signs, products, etc., is the responsibility of the exhibitor or exhibitor appointed contractor.
9. Any equipment, signs, products, etc. deemed to be unsafe for overhead suspension by the Orange County Convention Center Rigging Services Department will not be allowed. All signage is subject to on-site inspection for final approval.
10. A credit card must be placed on file with the Method of Payment form for any additional charges.
11. The OCCC does not accept purchase orders.
12. Actual time and date of rigging may vary during move-in and move-out of your show in order to reduce costs to you.
13. All orders for rigging will be handled in the order in which the paper work is signed off at the OCCC Exhibitor Services desk or at the discretion of the OCCC Rigging department.
14. If you are not flexible and need a DEFINITIVE DATE AND TIME, you need to order a Dedicated Rigging Team. The exhibitor will be charged a minimum of 4 hours up and 4 hours down times the number of riggers needed.
15. The OCCC is not responsible for any rigging items (banners, signs, etc.) left in the booth during move-out if the exhibitor is not present.

Seams:

1. When using cloth material, seams need to be double stitched on the top and bottom.
2. Heat Seam is ONLY acceptable when hanging lightweight vinyl drape.
3. If the vinyl drape to be used as a drop down for a sign or banner, which would include a bottom batten to attach the foam core, sintra, or cloth/vinyl banner, the OCCC requires double stitching on the vinyl drape due to weight considerations and possible failure of the heat seam.

Adhesive:

1. Adhesive or glue tape is not acceptable due to the tendency of it to come loose under weight.
2. The use of any type of adhesive for attaching signs, banners, or decorations to the building walls or decorative surfaces (inside or outside) is NOT PERMITTED.

Hardware:

1. The manufacturer must rate all rigging hardware with a "Working Load Limit" (WLL).
2. The manufacturer of the rigging hardware must be legally liable for its products in the continental United States.
3. All wire rope slings 3/8" and larger must be certified and proof-tested (tested to twice its working load limit).
4. Flemish eye construction is preferred for all wire rope slings 3/8" and larger.
5. The OCCC Rigging department reserves the right to substitute hardware on a case-by-case basis at its discretion.

NOTE

- A CREDIT CARD ON FILE with an OCCC Method of Payment form is REQUIRED for all rigging orders. The credit card will initially be charged for the Initial Rigging Charge and any additional charges for labor or hardware needed to suspend items will be charged separately to the credit card.
- After your sign is assembled and ready to be hung, an AUTHORIZED SIGNER from your OCCC Method of Payment form must visit the OCCC Exhibitor Services service desk to sign rigging paperwork. Rigging orders are handled in the order in which the paperwork is signed-off at the OCCC Exhibitor Services service desk and/or at the discretion of the OCCC. Dates of installation will vary depending on the quantity of orders and move-in days. If a specific install or strike time is required, the exhibitor must order a Dedicated Rigging Team.
